It is a perfect solution for those who want to share their home with another family or for those looking for a real estate investment. The villa is divided into two symmetrical housing units, each with a garage, cellar and technical room in the basement. On the ground floor there are the bedrooms and bathrooms, while on the first floor there are the living room, kitchen and another bathroom. In this case too, each housing unit has its own terrace on the top floor. -Our third villa is a two-family house of 490 square meters, called Villa Exclusive.
