DESCRIPTION

MULTI-ROOM APARTMENT 144 SQM WITH BALCONY AND MADONNINA VIEW

Historic Center - DUOMO / MISSORI In Historic Building of 1863 with access through the inner courtyard, where a Contemporary Art Gallery is located, we offer for sale with exclusive assignment a property of absolute value and charm overlooking the Church of Santa Maria presso San Satiro and the spires of the Duomo. Spacious and bright apartment of 144 square meters located on the second floor, composed as follows: spacious and usable entrance hall leading to a double living room with dining area and with a balcony that runs along the entire facade, habitable kitchen, 3 bedrooms (including 2 doubles) and 2 bathrooms. The interior space is perfectly organized, comfortable and functional, can accommodate the new owners without the need to make interventions. At the same time, it is a space that lends itself to possible modifications to meet the needs of each individual buyer, also thanks to the double entrance with which it is equipped that would allow the creation of 2 independent units (some solutions published, others available in the agency).

The important internal heights (3.20 meters), large French doors and double exposure make it particularly bright. The property is equipped with independent heating, double-glazed wooden windows, video intercom, a compartment/storage room in the bearing height, starting from the master bedroom, safe. It is served by an elevator from the second floor. Protected by the thick walls, the apartment is quiet and reserved but particularly "energetic" given the location, it is therefore ideal for those who want to live Milan, in a residential and lively context, with strong historical connotations. The central location is ideal to reach the main universities of Milan, as well as the main business locations. Located in the oldest area of Milan, the fulcrum of the Roman city, the street of this residence corresponds to the Decumano Maximo of ancient Mediolanum, the most important street of the ancient Roman cities. The neighborhood, although in the center, is predominantly residential, quiet and reserved, in the beating heart of the city...
