DESCRIPTION

Bright beachfront apartment with garage and terrace

Imagining yourself falling asleep at night and waking up in the morning with a glimpse of the variegated hues of the blue of the sea fading into the blue of the sky is one of the main features of the beachfront apartment in Alassio. The spaces are cleverly divided to ensure maximum privacy and livability, a corridor from the entrance leads to the living area, which is spacious and bright with double French doors overlooking a sea-view terrace that looks like a picture animated with shades, scents and sounds, at different times of the day. The large space of the sea-facing area is well organized with a fully equipped, custom-built kitchen that provides every comfort and allows you to organize lunches and dinners with a unique and priceless view. In this area, a small but functional master bedroom with

its own closet and a window overlooking the balcony that runs along the side perimeter of the apartment. Walking down the corridor that leads to the master room, available to guests a convenient bathroom and a functional closet, the large master bedroom has a private walk-in closet, and a unique en suite bathroom, with scenic walk in shower, separate toilet area, large mirrors and a French door to enjoy the sea breeze, from here the side balcony leads to the sea front terrace. The location of this property in Borgo Coscia is privileged, close to the center, but residential, away from the hustle and bustle of the clubs and the bustling Alassio nightlife. Access to the apartment is double, both from Aurelia and from the sea promenade leading to the port. Possibility of buying garage separately.
