DESCRIPTION

Charming apartment suspended between sky and sea

The property opens onto a large open space that impresses from the first moment with its extraordinary brightness and the harmony with which the interior spaces dialogue with the outdoor environment. The large panoramic windows frame a breathtaking view, where the sea becomes the absolute protagonist and seems to literally enter the house, blending with the furnishings in a perfect combination of nature and design. Natural light, enhances the warm, Mediterranean tones of the living area, where every detail is designed to offer a feeling of comfort, openness and continuity with the surrounding landscape. The open kitchen integrates perfectly with the living room, offering practicality and style in one, here cooking

accompanied by the view of the sea becomes a pleasure. The corridor leads to the sleeping area, where the first bedroom, cozy and bright thanks to two windows, invites to relax. This is followed by a comfortable windowed bathroom, just off the room. Continuing, opens a second large room, embellished with an en suite bathroom that offers a corner of privacy and exclusive comfort. The apartment is equipped with air conditioning and independent heating. A planted terrace with sea view, two convenient parking spaces and a practical cellar complete the property. A rare opportunity in one of the most exclusive locations of the Ligurian Riviera, where time seems to slow down and every day tastes like a vacation.
